## #2. Accessing your prices and historical data

### Price assessments

Grouped by metal and sorted by region. Browse and click any listed assessment for a more detailed view

### Add to workspace

Tick your assessments and click 'Add to workspace' to add your prices to one of two customisable workspaces

### Save to charts

Interesting chart? Click 'Save to my charts' on any open graph to save it into your charts library

### Filter prices

To narrow down your price lists in real-time, type in the assessments you're looking for

### More information

Open a more detailed view with the most recent 6-months of data displayed in chart format, complete with PA code

### Add to notifications

To create an email alert, tick your prices and hit 'Add to notifications' to receive the latest updates

## #3. Creating and saving custom charts

### Charts

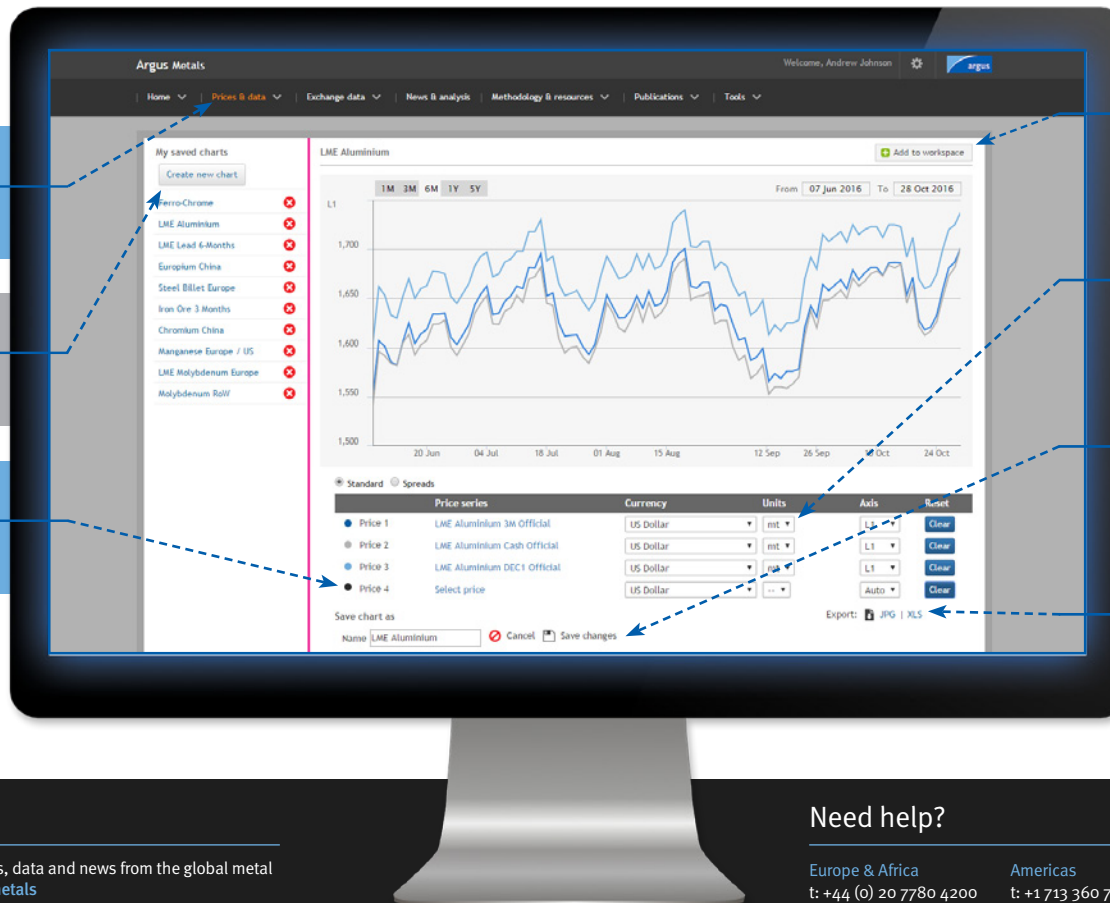

Located in 'Prices & data', here you can create, save and edit your own unlimited library of custom charts

### Create new chart

To get started, click 'Create new chart' to open up a new chart and start adding your prices

### Compare your prices

Click 'Select price' to browse and select up to four assessments from your pricing library

### Add to workspace

To keep a regular check on your charts, click 'Add to workspace' to add it to a custom workspace

### Customise it

Once you've selected your prices, add currencies, units and axis information to the display

### Save it

Save your chart to your library, so you can revisit and edit at a later date

### Export it

Need it in a report? Export your custom chart directly to Excel or as a downloadable JPEG

## #4. Finding and filtering your news

### Your news archive

Access your entire archive, full of recent and historical news and analysis for all metal groups

### News and commentary

All content is labelled as 'News' or 'Market Commentary', so you can read the analysis behind the headlines

### Filter by date

Filter by year and month to find the most recent headlines or analysis for your markets

### Filter by metal

Filter by metal groups, specific metals and more to quickly find the content relevant to you

### Add to workspace

To add a news feed to one of your custom workspaces, simply click 'Add to workspace'

### Add to notifications

Get the latest headlines as they happen. Click 'Add to notifications' to create an email news alert

### Read the full story

Found an interesting article? Click 'Read more' to access the article in full

# Argus Metals #5. Your custom workspaces

## Your workspaces

You have two fully customisable workspaces to fill with prices, news, charts and exchange data

## Lock & unlock

To get started, click 'Unlock' to enable edit mode. When finished, click 'Lock' to freeze content in place

## Settings

Rename your workspaces and set preferences for all feeds and widgets on display

## Add content

Hit 'Add content' to add a widget for any price, exchange feed, news or chart to your workspaces

## Widgets

Widgets display your content. They can be dragged anywhere around the page, and edited via the cog button

## Customise

Each widget has its own set of features. To customise, hit the small cog button in the top right corner

## #6. Managing your settings and preferences

### Your settings

As well as notifications, you can also manage metals of interest, preferences and change your password

### PDF reports

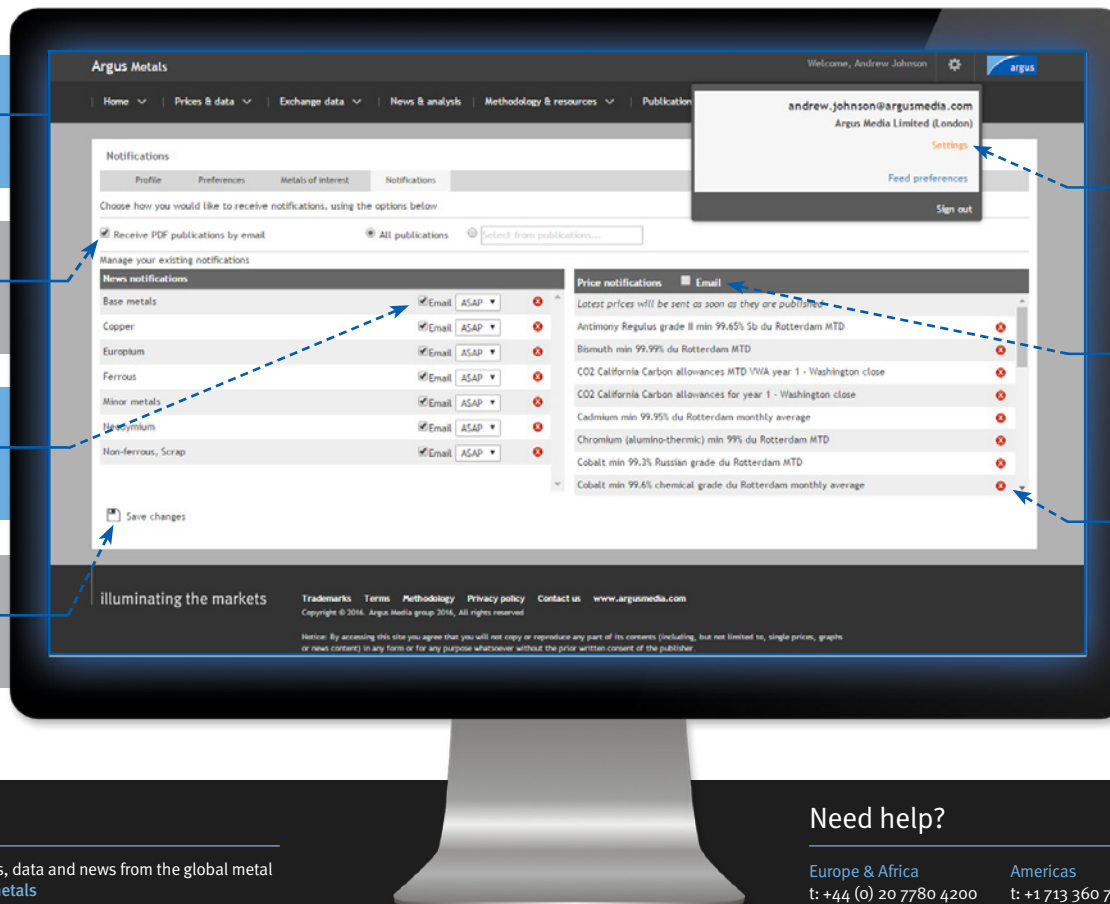

To enable your daily PDF report, tick 'Receive PDF publications' and select 'All publications'

### News notifications

Tick 'Email' to enable email news alerts. Use the dropdown menu to select their frequency.

### Save changes

Whenever you make changes to your notifications, be sure to hit 'Save changes' to apply your new settings

### Access your settings

To access your account, hit the small cog button in your navigation bar and hit 'Settings'.

### Enable price alerts

To receive the latest alerts from your saved prices directly to your inbox, simply tick the 'Email' box

### Delete alerts

To remove an alert, hit the circle red button on the right to halt all future notifications
