WORLD  
COCOA  
CONFERENCE2018

## A New Vision for the Cocoa Sector

### DEEP DIVES INTO VIABLE SOLUTIONS: SUSTAINABILITY

Today's Conference mission was to investigate the various channels of Sustainability. The 2 days prior were built around plenary sessions and moderated panels. But today, was a much more interactive and engaging opportunity for delegates to participate in finding solutions that address the many common challenges within the cocoa value chain.

There were four simultaneous breakout sessions, which addressed numerous topics under the following key headings:

- 1) Sustainable Production: Prosperous farmers and thriving communities** (Moderated by Simran Sethi)
- 2) Sustainable Industry** (Moderated by Daniele Giovannucci)
- 3) Sustainable Consumption** (Moderated by Dr Torben Erbrath)
- 4) Sustainable Management** (Moderated by Lucas Simons)
