**ARGUS WEST AFRICA ROAD CONFERENCE**  
**ACCRA-GHANA, 28-30 NOVEMBER, 2017**

The **Ministry of Roads And Highways** is delighted to officially endorse and support the upcoming **Argus West Africa Roads** conference, which will take place on 28-30 November 2017, in Accra, Ghana. We are working closely with the host, Argus media, to develop a platform for engaging discussions and debates over the future of the roads industry across West Africa.

As we focus our attention on the maintenance of roads and developing sustainable infrastructure, the Ministry of Roads and Highways is committed to **enhancing the efficiency and effectiveness of the performance of the roads industry**, and will do this through formulating policy programmes that meet the needs and aspirations of the people.

Now is an important time for **industry collaboration**; to enhance business relationships and to explore new techniques to improve the quality of materials. Argus West Africa Roads will offer a wealth of networking opportunities with key stakeholders from **across the road, bitumen and asphalt value chains**. It is an opportunity to explore the supply and demand landscape and identify new investments in construction, and evolving specifications for bitumen quality.

We invite the road and bitumen industry to join us at this prestigious event, as we look forward to hosting the Argus West Africa Roads conference at the Mövenpick Hotel, Accra.

**We look forward to laying the foundation for future co-operation and collaboration across the industry.**

  
HON. KWASI AMOAKO-ATTAH (MP)  
MINISTER
