

Argus Global Steel

Argus Global Steel provides independent price assessments covering the most commonly-traded steel products, including flat, long, semi-finished and stainless steel. The service also offers market commentary, news, downloadable data and interactive customisable dashboards. If your business is focused on steel, this is the service for you, providing focused pricing insights to enable you to make informed decisions with confidence.

Industry standard indexation – utilised by leading global exchanges to settle futures contracts

Argus Global Steel includes key benchmark price indexes, such as Argus hot-rolled coils (HRC) fob China and Argus HRC ex-works northwest Europe, as well as many other important price assessments used by mills, processors, end-users and traders around the world.

Global Steel market coverage and delivery

Price assessments

Argus Global Steel gives you access to indexation-quality, independent prices, news and analysis across the global markets of flat, long and semi-finished steel, accessible via our client portal and a daily PDF report, as well as a monthly ferrous roundup PDF, which provides an overview of key raw materials. Key steel price coverage includes:

- Flat steel: HRC fob Tianjin, HRC ex-works northwest Europe, HRC cif Italy, HRC ex-works Italy, HRC ex-works US Midwest, HRC fob India, HRC fob Turkey, HRC fob Black Sea, HRC cfr Asean, and many more. A range of downstream cold-rolled coil (CRC) and hot-dipped galvanised (HDG) prices are also included.
- Long steel: Rebar fob Zhangjiang, rebar cfr Singapore, rebar fob Turkey, rebar ex-works Italy, rebar ddp Houston.
- Semi-finished steel: Billet fob Black Sea, slab fob Black Sea, slab cif Italy.

Argus Ferrous Roundup PDF

The Argus Ferrous roundup is a monthly summary on iron ore, coking coal, pig iron and other steel feedstocks. This concise PDF covers macroeconomics, imports and exports, price movements, news highlights and market commentary for the world's key ferrous markets.

A global service with teams in Asia, Australia, Africa, Europe and the Americas covering breaking news from the world's steel markets, wherever you are.

Editor-curated workspaces bringing together steel content by region as well as a comprehensive global views of the flat and long products markets.

Access to downloadable data covering steel imports and exports, production and pricing.

Customers that benefit:

The Argus Global Steel service provides a comprehensive view of the steel markets in the context of the global industry. Below are examples of how some clients use this service:

Manufacturers of steel

Manufacturers of steel use Argus Global Steel price data to index sales contracts to the market, ensuring their customer agreements are durable over time and resilient in volatile markets.

Processors

Processors who process coils and sell to end-users to process into sheet and length and sell to downstream end-users use Argus Global Steel to plan sales and hedging strategies.

End-users

End-users use unbiased price indexes to negotiate contracts and plan purchasing strategies to ensure security of supply.

Traders

Traders identify arbitrage opportunities and sales, linked to Argus indexes, reassured by the knowledge that our assessments are impartial, robust and reliable for a wide range of steel products.

Our methodology:

Argus Global Steel is underpinned by the most robust, transparent and credible methodology, developed with the industry to ensure our price assessments are a true reflection of how the markets trade.
