Make the most out of your trip to Singapore

Argus Energy Horizons Week unites four events in one powerful program, offering an unmatched opportunity to explore every facet of the energy ecosystem.

Over the week, gain exclusive insights, connect with cross-sector peers, and engage in discussions shaping the future of global energy.

Each event focuses on a critical market area from traditional fuels and LNG to renewables and low-carbon solutions, giving you flexibility to tailor your experience while benefiting from shared knowledge and networking across the week.

Why stay for the week?

Every day delivers fresh perspectives, from regulatory updates and investment trends to breakthrough technologies and collaborative frameworks. Argus Energy Horizons Week helps you connect the dots and stay ahead in a rapidly evolving market.

Argus Asia Carbon Conference

Part of Argus Energy Horizons Week

14-15 April 2026 | Singapore

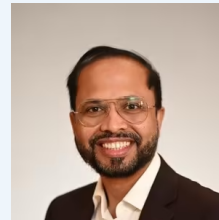

Unlocking Asia's carbon market to supercharge growth opportunities across the global value chain

Delves into the four primary drivers of the carbon ecosystem—national programmes, compliance markets, the Carbon Offsetting and Reduction Scheme for International Aviation (CORSIA), and voluntary corporate demand.

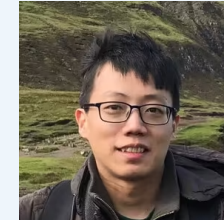

There will be a special focus on biochar, examining its industrial applications and its potential integration with other carbon removal technologies.
